April 2022 Online Meeting

April 14, 2022

Decision-making in the Age of BIG-DATA

Dr Errol Wirasinghe Ph.D comes with over 30 years of experience in optimization, creative thinking, decision making and strategic planning. An Oil & Gas industry specialist and University Professor, Dr Wirasinghe has published papers on Management, Engineering and Economics. His paperback books include "The Art of Making Decisions", "Better Defensible Decisions" and "Essential Negotiating Skills".

Dr Wirasinghe has worked and trained professionals in Asia, the Middles East, Africa, Europe, North America and South America. He has a thorough understanding of cultures and values that govern religious, social and business conduct on many Continents. Several of his consulting projects have included negotiations on behalf of international clients. He is an entertaining speaker with a global outlook and a passion for the subject. He brings a wealth of real-life experience and has helped many organizations add value to their human assets.
